Dallas, Texas 75376-9008

Dear Logical Decisions Incorporated and Jamieson Manufacturing Company:

The Protective Design Center reviewed the test report for the M50 P2 Logical Decisions and Jamieson Manufacturing Crash Gate System (CGS) Barrier Impact Test (test number 160416, test date April 16, 2016, Final Report date August 24, 2017), from Transportation Research Center Incorporated and determined the report meets test standard ASTM F2656M-15, *Standard Test Method for Vehicle Crash testing of Perimeter Barriers*. The Protective Design Center will add the barrier to the Department of Defense Anti-Ram Vehicle Barrier List prior to the end of September 2017.

The acceptance of the submitted test report only indicates that the test report met the criteria specified in ASTM F2656M-15. Acceptance is neither an endorsement of the barrier nor a guarantee that the barrier will be in any Department of Defense project.

The Protective Design Center maintains the Department of Defense Anti-Ram Vehicle Barrier List and makes it publically available at <https://pdc.usace.army.mil/>. The Protective Design Center treats all submitted test reports as proprietary information and safeguards them from public disclosure.

Thank you for your interest and endeavors in protecting our personnel and facilities worldwide. If you have any questions, you may contact Mr. Brian Erickson, at (402) 995-2394, or via email at [brian.w.erickson@usace.army.mil](mailto:brian.w.erickson@usace.army.mil), or Ms. Ann Mittelsdorf, at (402) 995-2930, or via email at [ann.m.mittelsdorf@usace.army.mil](mailto:ann.m.mittelsdorf@usace.army.mil).

Sincerely,

A handwritten signature in black ink, appearing to read "C. Betts", with a stylized flourish at the end.

Curt P. Betts, P.E.
